

# ARIZONA WORKFORCE

## EMPLOYMENT REPORT

Arizona Department of Economic Security, Research Administration

May 17, 2007

## State's Economy Slightly Expands in April; Gains in Five Major Service Sectors Offset Losses in Construction, Manufacturing

Arizona's economy added 3,800 jobs in April, reaching a record total of 2,731,400 nonfarm jobs. This monthly gain was well below the 10-year average change for April, though similar to last year's monthly gain (3,700 in 2006). Gains continued for service-providing industries of 4,400 additional jobs in April, while goods-producing industries lost 600.

Seasonally adjusted unemployment for April was 4 percent in Arizona, up one-tenth of one percentage point from March. The national adjusted unemployment rate similarly increased to 4.5 percent. National job gains were seen mostly in education and health services, with manufacturing posting the largest losses among the major industry supersectors.

Five of 11 major supersectors gained jobs, while six had losses. Most gains and losses were less than a one percentage point change from March. Four of 11 supersectors reached new records — professional and business services, educational and health services, leisure and hospitality, and government.

Natural resources and mining added 200 jobs, an increase of 1.9 percent. This industry has increased by 15.8

percent, or 1,500 jobs, since April 2006.

Construction lost 600 jobs in April, following a loss of 1,100 jobs in March. The loss for March reflects a downward revision (-400) from previously published figures. For April, specialty trades reduced jobs by 800, and buildings lost 100. Heavy construction gained 300 jobs.

Manufacturing experienced a decrease of 200 jobs for April. Since March figures were revised upward by 200, the pattern for the industry is effectively flat. Durable goods manufacturing and nondurable goods were each down by 100 jobs in April. Manufacturing shows an over-the-year loss of 700 jobs, representing a loss of 0.4 percent.

Financial activities showed a loss of 200 jobs in April, representing the first April losses since 2003. The real estate and rental and leasing sector gained 200 jobs, while the finance and insurance sector lost 400. Within the finance and insurance sector, credit intermediation experienced losses of 600 jobs.

Trade, transportation and utilities (TTU) pared 1,000 jobs, offsetting last month's rebound. Trade declined by 800 jobs, an amount slightly

## Arizona, U.S. Economic Indicators

### Unemployment Rate (Seasonally Adj.)

	<u>Apr. '07</u>	<u>Mar. '07</u>	<u>Apr. '06</u>
United States	4.5%	4.4%	4.7%
Arizona	4.0%	3.9%	4.2%
Phoenix MSA	3.3%	3.4%	3.6%
Tucson MSA	3.8%	3.8%	4.1%
Yuma MSA	13.9%	14.7%	13.9%
Flagstaff MSA	4.1%	4.3%	4.4%
Prescott MSA	3.8%	3.8%	4.0%
Lake Havasu City-Kingman MSA	4.7%	4.8%	4.0%

### Arizona Nonfarm Payroll Employment (in Thousands)

	<u>Apr. '07</u>	<u>Mar. '07</u>	<u>Apr. '06</u>
Overall	2,731.4	2,727.6	2,632.8
Over-Month Pct. Chg.	0.1%	0.5%	0.1%
Year to Year Pct. Chg.	3.7%	3.7%	5.1%

greater than its 10-year average. Within retail trade (loss of 500 jobs), general merchandise lost 1,200 jobs, offsetting gains of 900 jobs in building materials and garden equipment dealers. The other sectors to gain jobs within TTU were the motor vehicle and parts dealers (+100), furniture and home furnishing stores (+100), and food and beverage stores (+200). Air transportation decreased by 300, while utilities

*continued on page 2*

gained 100 jobs, making a net loss of 200 for the transportation, warehousing and utilities sector.

The leisure and hospitality industry continued expanding by adding 2,400 jobs in April, slightly more than its 10 year average for the month. Reaching a record total of 283,800, all sectors of this major industry had gains, adding 12,400 jobs since April 2006. The accommodation and food services sector again accounted for the largest portion of the over-the-month gain (+1,300). Arts, entertainment and recreation added 1,100 jobs as Arizona gets ready to head into the hot summer months. This industry is likely to show seasonal losses in the next few months as a result.

The professional and business services industry grew by 2,600 in April. Administrative and waste services, and professional and technical services added 1,400 and 1,300 jobs, respectively. This industry reached a record of 416,000 jobs, up 6.9 percent over-the-year.

Educational and health services posted a gain of 1,100 jobs — about

Arizona Service-Producing Employment and Over-the-Year Percentage Change, April 2007-April 2008

twice the 10-year average for April — to arrive at a record total of 300,600 jobs. The majority of job gains were in health care and social assistance (+800). Private educational services added 300 jobs. Since April 2006, 11,500 jobs were added to this industry.

Government gained 500 jobs in April.

Federal government added 400 jobs, partially in preparation for the fire-fighting season. State government added 300 jobs (200 in state education). Local government lost 200 jobs overall. Gains in local education of 200 jobs did not completely offset losses in other local government sectors.

Other services pared 900 jobs, a fairly typical pattern for April. Five of the last seven years reflect job losses in April for this industry.

The information industry continued its previous pattern and lost 100 jobs in April. This is the seventh year of employment consolidation for this industry group.

In conclusion, Arizona's economy

Equal Opportunity Employer/Program (see back page for more information)

continued to slightly expand in April. Arizona’s nonfarm jobs reached a new record of 2,731,400. The service-producing cluster showed gains in some industries that more than offset losses occurring in others. Four of its major industries reached new records — professional and business services, educational and health services, leisure and hospitality, and government. Losses in manufacturing and construction brought general decline to the goods-producing cluster. While both the manufacturing and construction sectors have showed gains in recent years, current losses make these industries ones to watch.

About This Publication

Arizona Workforce is published 14 times a year by the Arizona Dept. of Economic Security, Research Administration (RA) — 12 as the monthly Employment Report and twice a year as RA’s two-year Forecast Report.

Copies of the reports are available at RA’s Web site, [www.workforce.az.gov](http://www.workforce.az.gov), or by requesting a printed copy by calling 602-542-3871; writing to P.O. Box 6123, Phoenix, AZ 85005-6123; or sending an e-mail to: [bfine@azdes.gov](mailto:bfine@azdes.gov).

Material published in Arizona Workforce is in the public domain and can be reproduced without further permission. Appropriate citations are requested.

What is Meant by Benchmarking Process?

*Note: Each month, DES, Research Administration provides a brief description of terminology discussed in the monthly Employment Report. For more information on these and other terms, check the “Glossary” section of [Arizona Workforce Informer \(www.workforce.az.gov\)](http://www.workforce.az.gov); or the [U.S. Bureau of Labor Statistics Web site \(www.stats.bls.gov\)](http://www.stats.bls.gov).*

In accordance with practice, the two surveys involved with Research Administration’s (RA) monthly Arizona Workforce Employment Report are updated at the end of the year to reflect more complete and accurate data, a process known as benchmarking.

The establishment (nonfarm payroll) survey of industries produced by RA’s Current Employment Statistics (CES) unit is revised to reflect comprehensive universe counts of payroll jobs. These counts are derived principally from unemployment insurance tax records, which nearly all employers are required to file with the state workforce agencies.

The annual benchmark process normally results in revising data back to the last annual benchmark. As a result, all industry data series are subject to revision from June of the previous year through June of the year just completed. For example, the 2006 benchmarking process included data from June 2005 through June

2006. Revisions further back in time could occur when the methodology of how a firm is classified in an industry is redefined. Such an occurrence happened when the Bureau of Labor Statistics (BLS) moved from classifying industries according to the Standard Industrial Classification (SIC) to the North American Industrial Classification System (NAICS) coding methodology.

The household survey, a joint product of the Census Bureau and Bureau of Labor Statistics, measures the workforce statistics of the population (e.g., civilian labor force, employed, unemployed and the unemployment rate). Each year RA’s Local Area Unemployment Statistics (LAUS) unit updates the information for the local estimates to reflect new information received since the data was originally submitted. Some of the information that is updated is: the nonfarm payroll employment, revised monthly unemployment claims, migration controls, vital statistics, and new adjustments for multiple job holders.

Beginning in January 2005, the LAUS program completed a redesign that includes the introduction of real-time benchmarking in current estimation. These improvements to LAUS methodology further the BLS mission of providing the best data possible on a timely basis.

## Notes:

- 5) Prescott Metropolitan Area includes all of Yavapai County
- a) Labor force, unemployment, total employment, and seasonally adjusted unemployment rate should not be used for economic-assistance programs. Data for economic-assistance programs are available by contacting DES, Research Administration
- b) Preliminary and subject to revision in the following month
- c) Revised Nonfarm Employment. However, beginning with the release of February 2006 data, the LAUS (Local Area Unemployment Statistics) program will no longer revise monthly estimates. LAUS data consist of labor force, employment, unemployment, and unemployment rate (unadjusted and seasonally adjusted). For more information, see the LAUS section of Arizona Workforce Informer:  
<http://www.workforce.az.gov/?PAGEID=67&SUBID=142#UESStats>
- d) Adjusted to Current Population Survey (CPS) to reflect place of residence
- e) Normal seasonal variations have been eliminated to reflect underlying trends
- f) By place of work; does not include agricultural workers, self-employed, unpaid family members, and domestic workers
- g) Detail may not add up exactly due to rounding
- NA Not Available; Will Be Updated as Soon as Data Available

### **— Equal Opportunity Employer/Program —**

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact the Division of Employee Services and Support (DESS) ADA Coordinator at 602-229-2811; TTY/TDD Services: 7-1-1.
